

MABI[®]

ERGONOMIC AIR TOOLS

MABI Tools offer a safer, lighter and higher performing solution for a wide range of removal, demolition, and stripping applications.

- Remarkable power to weight ratio
- Rugged construction designed to meet the tough requirements of the construction field.
- Minimal maintenance for reduced downtime and maximum productivity.
- Safety and ergonomics at the core of the design for user comfort and efficiency.

SAFETY-TOOLS RETAINER

Rugged retainer prevents failures and secures the chisel with no risk of ejection. Simply rotate collar to disengage chisel.

UNIQUE DUAL ANTI VIBRATION SYSTEMS

2 Anti vibration systems protect operators from dangerous excessive levels of vibration. A **60% reduction** offers operators a safer, more comfortable and therefore more productive operation.

COMFORT & PERFORMANCE

Extended reach protecting the operator from debris. The perfect match of power and lightweight construction maximises productivity and comfort. Ergonomic design to offer the most comfortable working position. Multiple available lengths to prevent overreaching and allow the operator to work in confined spaces.

ERGONOMIC GRIPS

The combination of strong polymer materials with cast aluminium construction produces a lightweight yet strong tool perfectly suited for intensive use.

ERGONOMICALLY DESIGNED AIR TOOLS

RENOVATION

S36V1 MEDIUM

Length	34.64"	Power	18.43 ft-lbf
Weight	8.81 lbs	Blows Per Minute	3500 BPM

Air Consumption	9 cfm
-----------------	-------

INDUSTRIAL

S38V2 SHORT

Length	20.86"	Power	22.12 ft-lbf
Weight	9.7 lbs	Blows Per Minute	2950 BPM

Air Consumption	10 cfm
-----------------	--------

INDUSTRIAL

S38V2 LONG

Length	46.85"	Power	22.12 ft-lbf
Weight	13.45 lbs	Blows Per Minute	2950 BPM

Air Consumption	10 cfm
-----------------	--------

DEMOLITION

S55V2 LONG

Length	48.42"	Power	25.81 ft-lbf
Weight	14.99 lbs	Blows Per Minute	2250 BPM

Air Consumption	11 cfm
-----------------	--------

CHISELS

EXCAVATION

S55V2 T

Length	48.42"	Power	25.81 ft-lbf
Weight	14.99 lbs	Blows Per Minute	2250 BPM

Air Consumption	11 cfm
-----------------	--------

EXCAVATION

S55V2 D

Length	48.42"	Power	25.81 ft-lbf
Weight	14.99 lbs	Blows Per Minute	2250 BPM

Air Consumption	11 cfm
-----------------	--------

MABI - Innovations Designed for Success. Since 1967 we have been developing and manufacturing solutions to industry needs. Distributed throughout North America & globally through our valued partners and distributors, MABI products are designed with the users comfort and safety in mind.
